

Aabshar is a **climate-tech startup**, helping businesses, households & community centers in Pakistan, save billions of liters of water by installing government-approved water-saving products.

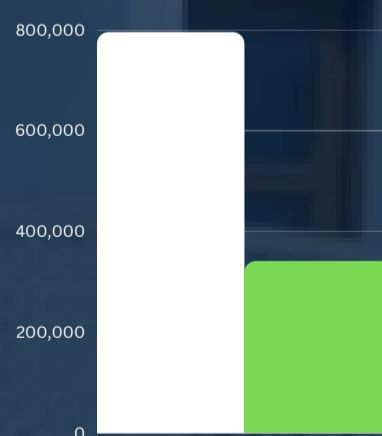

PROBLEM

Water is a precious resource that holds immense value in Islam. Unfortunately, water scarcity has become a pressing issue in many areas of Karachi including our beloved mosques.

CASE STUDY

Baitussalam Mosque is one of the biggest mosque in Karachi. Aabshar water-saving nozzles have helped make a significant impact. The results were promising!

	Regular taps	With Aabshar nozzles
Flowrate	12 ltrs/min	1.8 ltrs/min
Consumption	795,000 liters	341,000 liters
Water bills	Rs. 420,000	Rs. 185,000

Water usage
795,000L to
341,000L

Reduced **60%**
water wastage
in taps

Water bills
Rs. 420,000 to
Rs. 185,000

SOLUTION

Aabshar is on a mission to assist mosques in becoming water-sustainable.

- Like Baitussalam mosque, Aabshar has identified a list of mosques that require **similar assistance**.
- **Donations** will help install water-saving nozzles in these mosques.
- Your donations will help make a **permanent** impact on their water bills.

APPEAL

We have identified mosques in need of our **assistance**. Your contribution regardless of the amount, will make a difference in conserving water and supporting our mosques. May Allah (SWT) bless your generosity and multiply the rewards of your donations.
